Regional Representation

The RMB Fellowship has regional representation for the Board of Directors. A detailed description of the program is shown on the next page. Candidates must state their country of residence so that they can be placed in the proper category on the ballot.

While some incumbents are running for re-election, incumbents have no advantage during the election. They are subject to the same rules as other candidates. All votes for each office are tallied, and the highest vote getter(s) are elected, regardless of their status.

This notice is going out to all our address book and also published in the website.
